

Dust Control 'DC' Carpet Tiles

DUST CONTROL 'DC' CARPET TILES

Are you looking for a solution to reduce maintenance costs and minimise the dirt that is transferred into a building from general foot traffic?

Nolan Carpets have the answer with the DC carpet tile range from TOLI. This high loft carpet tile is designed to remove dirt and soiling from general foot traffic when entering a building.

Available in three versatile colours, the DC carpet tile range will compliment and work in combination with any standard Nolan Carpet Tile range. Using DC Tiles will provide a cost effective, stylish and integrated solution for any building entrance.
