

## The Perfect Addition...INCLINATION

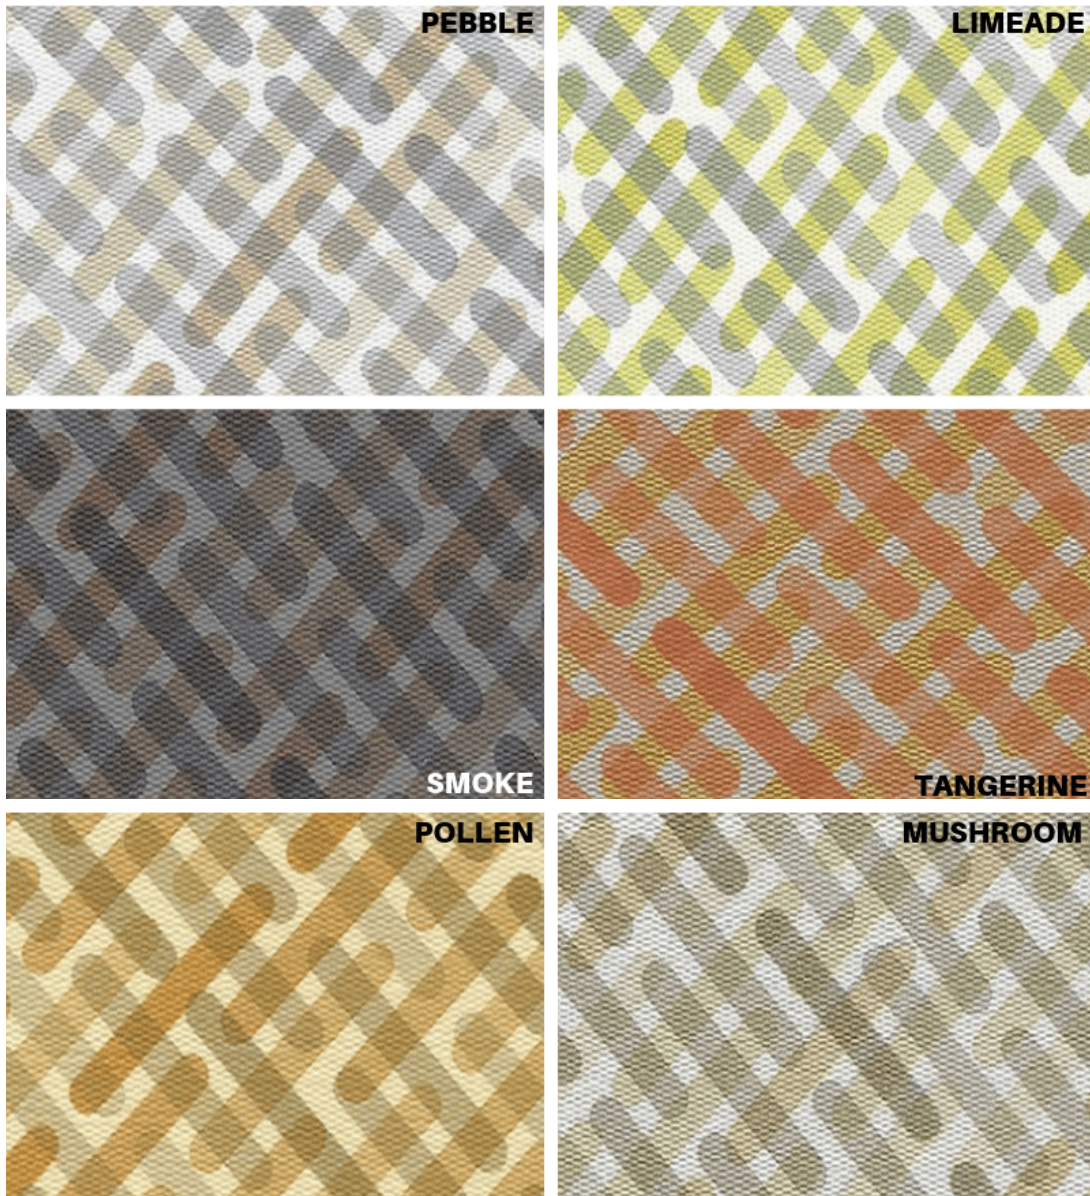

*Inspired by a magnified view of a woven structure cut on a bias...*

# INCLINATION

Inclination's colour palette provides a range of 10 colourways that are influenced by nature. Deep water blues and calming, earthy neutrals bring an organic quality to this design. Its colour palette also compliments several other product families such as **Silvertex, Hitch and Whisper**; so it will be a perfect addition to the Spradling products you already carry.

Because of its easy-to-clean surface, Inclination is the perfect solution for high-traffic areas such as healthcare and hospitality environments. Featuring Spradling's unique **PBG+® topcoat system**, Inclination is equipped to withstand the rigours of daily maintenance and its surface is protected against stains, bacteria and abrasion.
