

Cordova: Helping your clients meet food industry standards

CORDOVA: HELPING YOUR CLIENTS MEET FOOD INDUSTRY STANDARDS

When it comes to food service, high standards are obviously paramount. According to the Australian & New Zealand Food Authority 'a food business must maintain all fixtures, fittings and equipment, having regard to its use' (2012, Australia New Zealand Food Standards Code).

You can demonstrate to your hospitality clients that you can assist them in a highly competitive industry by helping them meet industry standards whilst providing an aesthetically pleasing environment.

Cordova Ultra can be used to provide a stylish and easy-to-clean surface that is ideal for hospitality. This iconic brand is protected by the innovative Silverguard antimicrobial system and Permashield Plus anti-graffiti finish and will breathe fresh air into any application.
